# Cash register

**Quintessence of fiscal art** • currently the most popular cash register on the market, Nano E is a neat, functional and technologically advanced device with an electronic copy of the receipt, which is the essence of fiscal art. The Nano E cash register is the best designed and well-thought-out cash register on the Polish market! The ergonomic shape and optimal dimensions of the device are the result of many years of work and experience of our engineers.

**Small dimensions and ergonomics** • NANO E is used in many businesses: small and medium-sized shops, doctor's offices, law offices, beauty and hairdressing salons, other service points and in mobile sales, where small dimensions and ergonomics of the cash register are particularly appreciated.

**Intuitive to use** • despite its very rich functionality, the cash register is exceptionally simple, even intuitive to use, and high-quality components ensure its reliability at the highest level. The cash register's many functions include the multi-currency function, support for transport services and rentals, parking lots, etc.

**Efficient and compatible** • NANO E has a very efficient battery - it can print up to 10,000 receipts without external power. The cash register can communicate with a computer, scale, scanner, payment terminal, and more. The keyboard is made of silicone, which protects the electronics against contamination or accidental flooding. NANO E can print graphics in the receipt header, program the name of the product with up to 40 characters and print the buyer's tax identification number on the receipt.

<b>Parameters</b>		
Number of products	3 000	
Number of PTU rates	7	
Number of cashiers	8	
Product name	40 characters	
Euro currency support	yes (multi-currency)	
<b>Printing Mechanism</b>		
Type	thermal, „drop in and work” mode	
Paper width • roller length	57 mm • 30 m	
<b>Keyboard</b>		
Type	switch, protected from flooding	
Number of buttons	23	
<b>Displays</b>		
Client	graphic LCD, blue, 192x48 pixels	
Cashier	graphic LCD, blue, 192x48 pixels	
<b>Interfaces</b>		
Communication connection	1 x USB, 1 x RS232	
Cooperation with devices	computer, scanner, weight, modem, EFT terminal, BT module	
Cash drawer control	yes, active 6-24 V	
<b>Power supply</b>		
External	External power supply 230V / 12V, 1A	
Internal	Built-in gel battery 7.2V, 2Ah, removable battery can be charged out of the cash register	
<b>Dimensions</b>		
Weight	0,65 kg	
Width/Height/Depth	94 x 58 x 229 mm
